The Unisa Graduate School of Business Leadership (SBL) Executive Leadership Laboratory is a physical and virtual space to build, nurture and share knowledge on socially conscious leadership built on solid values of ubuntu in ways that cultivate deep and creative thinking and high levels of reflexivity, while grounding in social consciousness, and other capabilities to influence and raise human consciousness to its next level of evolution. The Intra-Africa Leadership Laboratory is a space for leaders to harness their leadership experience with intuitive and technological capabilities.

Join us at our inaugural Executive leadership laboratory webinar where will be unpacking the theme "leading in turbulent and complex environments".
